## Notes on Design

Hello friends,

I am trying something new for 2007- a "Notes on Design" letter.

I am constantly finding great information to share. I see useful articles in magazines, I attend trade shows and seminars where I learn about the latest trends. I hear about great sales on interior furnishings- some only accessible by the trade. I hope you enjoy my sharing and my "insite". Please let me know what you think!

Thank you,  
Sharon Allemong

## New Year, New Look

After the holiday decorations come down, the house looks bare and we re-evaluate our interiors. This is a perfect time to think about what needs to be updated or improved- time to make a plan.

- What furnishings need a new look? New fabric, new finish?
- What's missing in the room? A rug, a lamp, window treatments?
- What items are not working? Get rid of them!

Whatever it is- write a list, make priorities and work your plan. Call in a professional to help-

they will see your home from a more objective perspective. Maybe the room just needs a new furniture layout or accessories borrowed from another room. You don't always need an extreme makeover!

## Coming Events

### International Home Furnishings Market

-March 25-31 High Point, North Carolina

### New Website!

-Will be arriving soon
